Rösner-Mautby
Meditrade GmbH
Kiefersfelden
GERMANY

06/2007 free of allergenic proteins
free of accelerators

Vinyl 2000 powder-free

► Medical Use

- Vinyl 2000 powder-free is certified for the use in the medical sector and
- suited for infectious situations

► Skin Friendliness

Gloves are both qualitatively and quantitatively free of accelerators and can thus be used for Type IV allergies. *)

This product is free of allergenic proteins, which can cause states of shock. **)

Please contact us, if you have any questions regarding glove allergies.

► Handling and Comfort

Among users, Vinyl 2000 is known to be excellent due to its soft texture, high touch sensitivity, tensile strength and safety.

Thanks to a new formula with higher elasticity, our vinyl glove can alternatively be used instead of latex and nitril gloves.

► Safety

- EN 455-1, -2 and -3
- AQL 1.5 minimum guarantee for impermeability
- Certified by DEKRA-ITS GmbH

Advice: Our "Gentle Med Cremelotion W/O" is prophylactic protection and expedient complement to protective gloves.
